Proposal to Resoptima (Owen)

Front-end development and UX planning for a web system.

Proposal Number: 0507202548

05/07/2020 - São Paulo / Brazil

Dear Owen,

Thank you for your interest in my services. This document describes the proposal for the web design implementation. I am condent that I can work with you and help your team achieve their goals. Please, nd below the scope description and the costs.

Scope

Phase 1 - Create a web design system based on the current Resoptima application on top of Bulma framework.

Phase 2 - Implementing HTML/CSS for web page layouts based on wireframes provided by the Resoptima team.

The final output will be a complete implementation of a Web Design System, including HTML and CSS. The work model will have an open scope, based on the demands provided by Resoptima. This proposal presents the hourly value based on labor costs and taxes.

Services

Service/Product	Hours	Cost per Hour	Total
Front-end development and UX planning for a web system	Open	NOK 200	Open

Aditonal Information

Remote meetings can be scheduled in advance and can happen in the period between 7:30am and 9:30am (Brazilian time, weekday). Chatt support will be available at any time and I will do my best to return in time (taking into account the Brazilian time zone).
